

ComputerLand of Silicon Valley Celebrates 25th Anniversary

San Jose, California, January 23, 2016 – This year, CCT Technologies dba ComputerLand of Silicon Valley is proud to announce its 25 year anniversary as a trusted IT solutions provider to government, business, and education institutions nationwide. Founded in 1991, ComputerLand has grown from a small storefront in Fremont, CA to earning a reputation as a top value added reseller with numerous branches in the growing Silicon Valley.

Throughout ComputerLand's 25 years, the company has experienced multiple milestones and has seen remarkable growth. In 2005, we expanded our services by acquiring Menlo Event Services (Rent-A-Computer), an IT event management and show services company. In 2008, we established a San Francisco office and in 2014, we accomplished a significant fiscal landmark when we broke the \$40 million revenue mark. ComputerLand has also been recognized on CRN's Solution Provider 500 List for 10 years running, which honors the top revenue-generating technology integrators in North America.

ComputerLand's continued growth and prosperity can be attributed to its loyal customers, strong vendor relationships, and its dedicated employees. We are thrilled to celebrate this 25 year anniversary milestone and wish to acknowledge and thank all of our team members who have made these past 25 years a true success.
