Creative Cloud for education

School site license

• Device licenses for each computer, rather than each user—great for labs and multi-user environments

• Creative Cloud All Apps plan (services not included)

• Scalable software deployment for a single school site

• Minimum purchase of 100 licenses with option to add additional licenses

• Affordable pricing and flexible site license terms from 1–4 years

Licensing for your entire school district

• Device licenses for each computer, rather than each user

• Creative Cloud All Apps plan (services not included)

• Scalable software deployment for an entire district

• Minimum purchase of 500 licenses for a district with option to add additional licenses

• Affordable pricing and flexible district license terms from 1–4 years

Put your students on the path to digital literacy.

Set them up for success with free Adobe mobile apps for Chromebooks and powerful Adobe Creative Cloud memberships.

Launch their creative journey with free mobile apps.

Digitally literate students can apply digital tools to solve problems, produce innovative projects, communicate more effectively, and prepare for the challenges of an increasingly digital world. And now that Adobe's free creative mobile apps are available on Google Chromebooks[*], millions more K–12 students can begin the journey to digital literacy. The mobile apps give students easy ways to create illustrations, graphics, layouts, and more—a great first step toward growing their creative and digital skills.

Adobe's free mobile apps for Chromebooks include:

Adobe Photoshop Mix—which allows students to cut out and combine photos to create all-new images.

Adobe Photoshop Lightroom for mobile—which enables them to craft and share pro-quality images with simple tools.

Adobe Illustrator Draw—which lets them create beautiful free-form vector designs.

Adobe Photoshop Sketch—which gives them natural tools and brushes for expressive drawing and painting.

Adobe Comp CC—which makes it possible for them to create real layouts using natural drawing gestures.

Adobe Creative Cloud for mobile—which lets them access files and design assets stored in Creative Cloud.

Your students can also use free, web-based Adobe Spark apps for visual storytelling:

Adobe Spark Page—turn words and images into beautiful web stories.

Adobe Spark Video—create compelling animated videos using their own voice.

Adobe Spark Post lets—create stunning social graphics.

Chromebook models must allow the use of Android apps.

Powerful Creative Cloud apps enhance digital skills to foster academic and career success.

Once your students have been introduced to digital creativity with Adobe's free mobile apps for Chromebooks and Adobe Spark, you can further build their digital literacy with Adobe Creative Cloud for education. They'll get a comprehensive set of the world's best creative desktop apps, including Adobe Photoshop, Illustrator, InDesign, and Premiere Pro. They'll also get a broader collection of creative mobile apps, plus rich learning content to help them master essential digital skills.

With powerful Creative Cloud tools, your students can fully express their creativity and bring their ideas to life in professional-quality digital images, graphics, layouts, videos, websites, animations, ePortfolios, and more. They can practice critical thinking as they use the tools to solve problems, produce innovative projects, and communicate with impact. They can differentiate themselves by building compelling personal brands and portfolios for their college and job applications. And they can prepare for the challenges of an increasingly digital landscape in college and the workplace.

You can bring Creative Cloud to your school or district with affordable, easy-to-manage licensing options available through the Adobe Value Incentive Plan (VIP). Pricing is US$25 per seat per year, with a 100-seat minimum for schools and a 500-seat minimum for districts.

Site and district license benefits:

- **Budget predictability**—A low-cost, flat-fee, single-license purchase with one annual or multiyear contract for school-owned or leased computers, with the option to cover more at or after the time of purchase.

- **Flexible deployment and management**—Designed for an individual school or district, licensing options offer a web-based Admin Console that makes it easy to centrally manage and deploy licenses.

- **Classroom and home use**—Schools have the flexibility to use licenses for in-classroom deployment, including BYOD environments, or at home on teacher-owned machines.

- **Free instructional resources**—Your educators can access the Adobe Education Exchange for free professional development, teaching resources, and peer-to-peer collaboration to help them get up to speed on Creative Cloud apps and ignite creativity in the classroom.
